Gas Appliance & Boiler Service

Our engineers will only carry out one annual service, safety and operational checks in any 12 month period. Our engineers will usually carry out this service at around the same time each calendar year. This will depend on their workload and your appointment preference. Service, safety and operational check visits (where applicable) will be carried out on an agreed date between the 8th and 12th month after the commencement start date and will be booked automatically.

Appointments will usually take place between the hours of 8am and 7pm Monday to Friday, excluding bank holidays, and will be subject to our engineers’ availability.

During your services, if the engineer finds your boiler has problems which are not included in the service, they will provide you with an advisory note detailing work that should be undertaken. It is a responsibility to ensure that the work is covered under your cost.

ONE-OFF REPAIRS

Charges

We will discuss the cost of your one-off repair with you to ensure you are satisfied with our charges. Our typical charges are £80 for repairs relating to electrical appliances, drainage, plumbing, electrics, home security and pest control, and are £95 for repairs relating to boilers and gas appliances. These charges will cover you for repairs costing up to £200. You will be liable to pay for any repair costs over this value.

To be eligible for a one-off repair, you must also sign up for a membership plan with 24|7 Home Rescue, at a minimum value of £15 a month. This membership plan will cover the cost any subsequent appliance repairs or emergency repairs for all items mentioned in your service contract, aside from any excess outlined within your membership plan, and subject to the terms and conditions of your schedule.
If you cancel your membership plan before the contract has been completed, you will be liable to pay the full cost of the repairs, as well as a £120 cancellation fee.

**Scheduling**

We will discuss the timing of your repair with you over the phone, through email or through any other communications service. We will endeavour to ensure that your repair occurs as quickly as is reasonably practicable.

If you wish to reschedule your repair, please call 01254 355535 between 10:00 and 18:00 UK time. Please provide at least 24 hours’ notice of your intention to reschedule. You may incur a small charge if you do not inform us of your intention to reschedule in a timely manner.

In unusual circumstances, such as extreme weather events or illness, the Providers may be forced to reschedule your repair. We will try to inform you of any scheduling problems as quickly as possible, but in some circumstances we will be unable to inform you until the scheduled date of the repair.

**Your obligations**

Please ensure that our approved engineer can easily access the property and the item that requires a repair. Our approved engineer will be unable to repair the item if they are unable to access it or if any health and safety hazards are present.

If you do not own the property that the item is located in, you must obtain the property owner’s permission before you arrange any repairs. We do not accept any responsibility for any damages or losses you sustain as a result of the repair if you have not sought and attained permission for the repair from the property owner.

Please tell 24|7 Home Rescue as much information as possible about the repair required. This may include, but is not limited to, the manufacturer of the faulty item, the faults recognised, the age of the faulty item, the length of time the problem has been apparent for, and if any other repairs have been attempted.

To minimise the cost of your repair and to reduce the length of time it takes to complete your repair, you should create as much access as possible. This may involve lifting up carpets, removing bath panels or lifting floorboards.

**Repairs**

While 24|7 Home Rescue will take all reasonable steps to complete all repairs, there are some instances when we will be unable to complete the repair. These include, but are not limited to:

a) When completing the repair would pose an unacceptable health and safety risk, such as if the repair requires the removal of asbestos

b) When the item that requires repairing does not conform to legal standards, such as if a gas appliance has been fitted by an unregistered engineer

c) When the defect identified relates to a design fault

d) When the item that requires a repair has been subject to a product recall

We may identify additional repairs that are required in order to bring your home up to regulatory standards, such as powerflushes of plumbing systems, cleaning out of flues and vents for gas appliances, and improvements to safety earthing arrangements for electrical installations. You may incur additional charges for the cost of these repairs.

You are not obliged to accept our approved engineers’ recommendations for additional repairs, although you will be unable to apply for subsequent repairs under your 24|7 Home Rescue maintenance plan until the approved engineers’ recommendations have been adhered to or until another accredited professional has deemed that your home complies with regulatory standards. We will discuss the cost of these additional repairs with you and agree to a pricing structure before this additional work commences.

**Damages**

We will take all reasonably practicable steps to avoid damaging your property during the course of your repairs. We will fill in any holes and reassemble fittings and features as required, but will not replace or repair any damages that were caused by the existing fault. We will only be liable to recompense you for damages caused by negligence. By agreeing to a repair, you accept that some slight property damage may be an inevitable consequence of the repair.

**Privacy**

24|7 Home Rescue takes your privacy seriously. We will only share your personal information with other bodies when doing so is essential for the completion of your repair. We are not responsible for any loss, damage or inconvenience resulting from a delay in obtaining or receiving delivery from the relevant supplier of any spares.

When replacement parts are received, we will contact you to arrange a suitable time slot for the engineer to attend. You should make sure that the engineer can get reasonable access to carry out the repair. If we cannot get a replacement part needed to carry out, a repair our liability will be limited to a temporary repair to make the emergency safe.

We shall not be liable for costs arising from or in connection with:
1. Existing circumstances known to you prior to the commencement date of your service contract or incidents which occur within the waiting period;
2. Claims arising after the home has been left unoccupied;
3. Any wilful or negligent act or omission by you or any third party;

In the event that 24/7 Home Rescue sells part or all of its operations to another business, your personal information may be shared with this business. We will inform you of this occurrence in advance to confirm that you are happy for your data to be shared in this way.

If you do not pay any money owed to 24/7 Home Rescue, we may be forced to transfer your debt to another organisation, such as a debt collection agency. We may also share your information with fraud prevention and credit reference agencies to assess your ability to pay your membership fees and your ability to afford any other services we may have on offer.
